SIMPLY CLEVER

ATTENTION PLEASE

Confidence isn't just for public speaking. It's an attitude that steers you through life. And if you weren't born with it, you can always borrow it from the ŠKODA FABIA. With its sharp, angular lines it's way too bold to be shy. But its confidence isn't just locked in its looks. Being a thoroughbred ŠKODA means it comes with thoughtful Simply Clever details that add comfort to confidence.

The FABIA is yet another example of our philosophy of making beautifully designed cars that are as much a joy to drive now as they were back when we started.

That's Simply Clever. That's ŠKODA.

SPORT & DESIGN

Express your individuality to the full. Besides the stylish sports pack, which highlights the dynamic design of the car, you have many other options. For example, original interior decals or leather accessories, plus door sill covers. Not forgetting the attractive light-alloy wheels in 15", 16" or 17" sizes.

Design foils set - Front bumper, Bonnet, Roof, Roofspoiler, Tailgate under the window (6V6 064 317M), for COMBI (6V9 064 317F)
External mirror decorative caps in Corrida Red (6V0 072 530) or in Black Magic (6V0 072 530A)

RED & GREY PACK

ŠKODA Genuine Accessories

The pack includes external mirror decorative caps in red colour, decorative frame for the front radiator in black colour and RED & GREY PACK details on the bonnet, roof and boot door. The range also includes an alternative BLACK PACK (black rims, external mirror decorative caps and RED & GREY PACK details). The pack can only be ordered for a new car. ŠKODA AUTO takes care of the professional assembly. For this pack are recommended 17" wheels with lightweight red Savio alloy rims.

INTERIOR AS YOUR SECOND SELF

ŠKODA Genuine Accessories

ŠKODA FABIA BRINGS A REVOLUTIONARY POSSIBILITY OF INDIVIDUALIZING THE CAR INTERIOR

Do you want to enjoy a memory of your finest trip? Or have those, who are waiting for you at home, always in sight? Or simply style your vehicle to the last detail? Fine-tune the interior of your vehicle with a decorative foil, which fits perfectly into the space on the dashboard in front of the passenger seat. But most importantly, which can carry any motive you can think of. Thus, it perfectly reflects your style, temperament or hobbies. And when they change? You can peel the foil off in one fell swoop, and you can spice up your car again!

BEING A DESIGNER IS SO EASY!

1. CAPTURE YOUR BEST

Take a photo of your motive, or choose any favorite picture.
Be creative, imagination has no limits!

2. JUST A FEW CLICKS

Go to the page of ŠKODA E-shop (eshop.skoda-auto.com), where you will find a simple application in the "Interior Foils" section. In a few easy steps, you first choose the type of dashboard decor (black, white or light gray and dark gray brushed), upload your photo, adjust the desired section, and then all you have to do is complete the order.

The finished foil will be delivered by courier to your home.

3. LET'S STICK IT ON

Stick the delivered foil onto the dashboard according to the attached instructions. If you are unsure of your skills, do not hesitate to contact our service partners, who will be happy to help you.

DON'T HAVE YOUR OWN IDEA AT THE MOMENT?

If you want to decorate the interior of your vehicle to your liking but don't have a suitable picture, use the selection of ready themes. The pre-defined interior foils can also be ordered in the ŠKODA E-shop. You just need to decide, which one of the 10 black and white designs will be the right one for your car.

WHEELS

WHEELS

BUSINESS CLASS WITH
TOUCH OF PERFECTION.

The same way shoes tell important things about you, rims tell about your car. Whether your goal is to accentuate FABIA's elegant or sports attributes, ŠKODA genuine wheels are a perfect match.

The product consists of a lightweight alloy wheel (including a wheel-centre cap with the ŠKODA logo). A set of four wheel trims is available as an optional extra for the steel-wheel alternative.

May be used with snow chains

Did you know, that...

All the alloy wheels have passed rigorous homologation tests of ŠKODA AUTO to prove their resistance to corrosion, climatic influences and driving strain? Moreover, alloy wheels are protected by a layer of extremely hard, heat-resistant paint.

INFOTAINMENT

INFOTAINMENT

Your new FABIA gets on well with advanced technologies. So make the best of it! Needless to say, the higher the infotainment system level, the more interesting functions you can enjoy. Do you use a smartphone? Then get interesting car data via SmartLink+. Do you go on long trips? The Fatigue Detection Assistant will be a perfect co-driver for you.

CARSTICK

ŠKODA Genuine Accessories

The CarStick can be used to generate an internet connection for mobile online services (ŠKODA Connect). This means that you can use the services without using an internet connection from your smartphone. You can even set up a Wi-Fi hotspot in your vehicle in just a few seconds. Simply insert a suitable SIM card into the CarStick, connect it to the USB slot in front of the gear lever and set up on the Amundsen navigation system. You can then connect any Wi-Fi enabled device to your own on-board network. (000 051 409F)

UPDATE YOUR MAPS AND SOFTWARE

Our goal is to make your life easier and your trips a pleasure. To achieve this, we prepared a new Infotainment Portal for you, using state-of-the-art technologies. Visit <http://infotainment.skoda-auto.com>, enter your vehicle VIN code and see how easy it is. The system recognises which updates you need and offers you the chance to download them comfortably at home. If you buy a new ŠKODA vehicle or navigation system, you get free map updates of your Europe navigation database for three years.

MAP UPDATES

Any road network is subject to ongoing changes, which means you must update the memory of your navigation system. This is the only way to travel securely to your destination every time, find the shortest route and enjoy your trip. For this reason, map updates save you time and money.

COMPATIBILITY LIST

This application will display your external device (smartphone, tablet) compatibility with software functions of the Infotainment system (Bluetooth, SmartLink™ etc.).

SOFTWARE UPDATES

Don't forget to update other software in your Infotainment system. From time to time software updates may be available for your OCTAVIA. Contact your local ŠKODA dealer for information.

MY DESTINATIONS

Through the MyDestination App you can set up destinations of your upcoming trip comfortably at home. Then you simply import the list to your navigation device. You no longer have to sit in your car while preparing your route. Controlling the navigation device is easier and more comfortable with this application.

Drive Activity Assistant

ŠKODA Genuine Accessories

At speeds from 65 to 200 km per hour, the system evaluates data from the power steering sensors. When it detects behaviour that may indicate fatigue (such as more intensive direction corrections via the steering wheel), it sends an audible and visual signal to the driver, recommending to take a break. ONE APP AND CONNECT APP

OneApp is a useful mobile application offering easy access to a wide range of services and assistance tools.

You can easily check the vehicle status or a trip log or plan a trip by referencing nearby places of interest simply and conveniently on your smartphone in the comfort of your home. With ŠKODA Connect App in place, your car remains under your control at all times. Access all necessary features and functions of your vehicle anywhere and anytime from your smartphone or smartwatch. Features are available based on ordered ŠKODA Connect bundle: Infotainment Online or Care Connect.

it is available only for Amundsen, Bolero, Swing. With the SmartLink+ system (ŠKODA Connectivity bundle supporting MirrorLink®, Apple CarPlay, Android Auto) the car's infotainment system enables the driver to safely use the phone while driving. Plus, all installed applications that are certified as safe for vehicles are compatible with MirrorLink®, Apple CarPlay or Android Auto. The SmartLink+ system also includes the SmartGate function. It enables you to connect your smartphone to the car via cable to access interesting data about your drive, like driving economy, driving dynamics or service information. Holds and lasts

Did you know that the textile floor mats from ŠKODA Genuine Accessories also undergo the so-called 'heel test'? This test simulates the action of the driver's foot on the accelerator, sinking the heel 5 mm into the floor mat in both dry and wet conditions at an angle of 45°. The floor mats also undergo an additional load test in the form of a long driving test, and further focus is placed on the brackets fixing the front floor mats to the car upholstery. The tests are designed to verify the proper clip strength needed to enable comfortable handling by the driver, while keeping the floor mat in place despite the occasional application of force during the drive.

When you head off on holiday, or set off for a cycling track or a ski run, some things you need simply do not belong inside a car – even if they fit. So transport them on the roof or in a trailer.

Simulation map of stress induced by roof rack tightening

The racks undergo a number of demanding tests. Their resistance to corrosion, loading capacity, strength and durability are tested in various conditions, as well as the subsequent water tightness of the car after their installation. During the so called City Crash test, a rack loaded with 90 kg must remain on the car body under a force of approximately 12 G lasting for 50 milliseconds (impact simulation).

A part of the ŠKODA Genuine Accessories portfolio, the tow bar significantly increases the utility value of your ŠKODA FABIA. It can have a 2100kg trailer with brakes or a 750kg trailer without brakes attached to it. The tow bar complies with all international regulations. It is made of high-quality materials and has undergone many rigorous toughness, corrosion resistance and stress tests. Its wiring has passed an electromagnetic compatibility test. The tow bar can be locked, securing it against theft. Its simple automatic mounting / dismounting mechanism does not require any tools, making it very easy to comply with the legal obligation to remove the device when it's not being used. After removal, the mounting hole is protected by a cover of the same color as the car's.

Do you want to ensure the maximum safety of your children in the car?
The child seats from ŠKODA Genuine Accessories with mounting options for transporting against the direction of travel, comfort and variability, represent the best solution for transporting the smallest passengers.

Practical and variable

The intelligent design of these child seats allows the child to not only be seated in the back, but also on the front passenger's seat where you can see them. The child seats feature variability and numerous setting options to adapt them to the changing size of your children.

Perfectly verified

All child seats from ŠKODA Genuine Accessories comply with European safety regulations (EHK 44.04) and have passed a number of other tests. The high quality and safety of these child seats is demonstrated by their excellent results in the Euro NCAP impact test, together with successful non-combustibility testing, harmful substance ratings and cover quality.
